About the Lightarian Source Ray

The Source Ray provides an energetic connection for you with the energies of our Universal Source. This attunement connection will allow you to access all twelve of the Divine Virtues embodied by Source in order to fulfill your personal "divine mosaic-pattern of energies" for the coming times. Via this attunement, you lay the foundation for creating a more ascended state of being as you manifest essential aspects of these twelve Divine Virtues in your day-to-day experience. The twelve Divine Virtues are the vibrational "building blocks" for human experience within our Universe and all twelve are now available to you via the Source Ray. They are: Beauty, Compassion, Courage, Curiosity, Imagination, Joy, Justice, Love, Loyalty, Power, Purity and Will...and they are discussed in more detail later in this Client Information.

We trust that your energy connections via the first five Rays...with Ascension Master Maitreya and Ascended Masters El Morya, Buddha, Sananda and St. Germain...have been accelerating your personal spiritual development, focusing on the five spiritual processes of self-empowerment, clearing, healing, activation and manifestation.

These first five Lightarian Ray attunements are primarily designed to do just that..."to accelerate process"...in order to truly assist you in moving along your spiritual path. Having been attuned to these five Masters, you **directly** received their highly focused support on the five processes as described above. And, as a secondary benefit, you have been **indirectly** tapping into the dominant Divine Virtues manifested by each of these Masters...Maitreya (Power), El Morya (Power), Buddha (Compassion), Sananda (Purity) and St. Germain (Courage).

And now, with the assistance of your Source Ray Practitioner, you have the opportunity to bring the remaining Divine Virtues into your life. After receiving your attunement to Universal Source, you will be directly tapping into all twelve of the Divine Virtues and will have access to the energies and qualities of the other eight Ascended Masters (those Masters not associated with the first five

Lightarian Ray attunements). This is "leading edge" etheric work which combines an education aspect and an energetic experience for you. The material for all Lightarian energy work has been inspired, channeled and developed from non-scientific, non-clinical, etheric energy sources. The sole purpose of the Source Ray is to expand the conscious awareness and understanding of the individual via the materials and to launch spiritual process via the energetic attunement.

Some background about the Source Ray

Since the founding of the Lightarian Institute by Christopher and Jeannine Marie Jelm in 1997, their channeling work has been intense and ongoing with the Godhead energies and the highest vibrational beings in both the Angelic Realms and the realms of the Masters.

Over the years, the presence of Maitreya via the Empowerment Ray represented the highest vibrational energies within the realms of the Masters to collaborate on the creation of a Lightarian modality. Now, as the vibration levels of Lightarian teachers, students and clients have been steadily rising, it became appropriate and timely for the Institute to introduce the next higher vibrational level of energy work.

And so, during June of 2002, while out hiking in the powerful vortex energies around Sedona, Christopher and Jeannine experienced an energetic overlighting and spontaneous attunement with the energies of Universal Source. During this beautiful and uplifting event, a flow of information about this connection and its purpose were "downloaded" into their consciousness. Immediately following this event and for several days thereafter, more inspiration and information came forth regarding the creation of a more formalized connection with Source. These channeled ideas and material were organized into the form of energy work which was first introduced under the name Lightarian SourceLink and is now offered as the Lightarian Source Ray.

A very brief Lightarian description of Source

Located vibrationally just below the Godhead levels, there is a particular layer of energies which we call our Universal Source. This very high vibrational band consists of highly focused energies of pure thought and intention which produce "all of creation within our physical and non-physical reality." Although highly focused when it comes to creation, Universal Source seems to us to retain a more general energetic quality regarding a sense of presence and communications. We experience the energies of Source more like a general energy field rather than a more personified energy. Unlike Universal Source, the Angels and Ascended Masters have tended, on most occasions, to present themselves as a more personal, individualized form of energy...often appearing quite human-like. So, as we discuss Source throughout this Client Information and link with the energies of Source during the attunement, we will use general terms for these energies, rather than personifying these energies in any way...such as the use of the words "his" or "her."

A brief Lightarian description of the Ascended Masters

The energies of the Ascended Masters have been purposefully created in the form of twelve spiritual beings...as a continuation of the process of expansion and diversification of experience projected from the Godhead levels vibrationally downward through the levels of Universal Source and Maitreya.

CLIENT INFORMATION

The Ascended Masters could be considered god-like creator-sources in twelve "zones" that exist within our energetic "section" of the Universe. They are co-creator sources of all energy forms and life experiences in these twelve zones. From their vantage points at these higher vibrational levels of experience, these Ascended Masters offer their wisdom and guidance to us in this plane. They have been active and supportive of the global/human evolutionary process since the beginning of the life of Gaia.

As the Ascended Masters project their energies etherically to us, we humans often desire to associate a name with the Master we are experiencing. They usually cooperate with us, because they often see the "naming" process as a genuine facilitation for the individual who is tapping into their energies. Due to the varying perspectives and belief structures that exist throughout humanity, there is a wide range of names for these Masters that you may read or hear about. Over time, hundreds of different names have been given to various aspects of just these twelve Ascended Masters. (Each of these higher spiritual Beings has a virtually infinite number of sparks or "aspects" of consciousness - all operating at slightly different vibrational levels within a particular vibrational band.) Also, during interactions with humans, the Ascended Masters often reflect one of their past incarnational lifetimes, generally to facilitate the process and always with the intention to fulfill some specific purpose.

Over the years, we have learned that each Ascended Master has chosen a dominant Divine Virtue to infuse into his/her particular "zone" of experience. Via the Lightarian Clearing Ray, Healing Ray, Activation Ray and Manifestation Ray you became attuned and connected with four of these Ascended Master energies...El Morya, Buddha, Sananda and St. Germain, respectively. Now, via the Source Ray attunement, you will have access to the remaining eight Ascended Masters. In the following descriptive material, you will find information about the particular Divine Virtue that each of the twelve Ascended Masters has chosen to embody.

Accessing all twelve Divine Virtues via the Source Ray

As mentioned earlier, Universal Source has organized our human experience through the principles of the twelve Divine Virtues. Here, in our "zone" within our "section" of our Universe, this organizing effort takes place through the focused creation and intention of Source, Maitreya and the Ascended Masters. Listed below are the twelve Divine Virtues and the divine beings who embody them, showing the particular dominant Divine Virtue that each carries.

In general terms, the Source Ray provides you with "energetic access" to the remaining eight Ascended Masters and their respective dominant Divine Virtues in order to support you...as mentioned before...in the creation of your personal "divine mosaic-pattern of energies" for the future. These eight Masters will be accessible and available to fully support you etherically regarding the Divine Virtues, although not through the structured, permanent attunement process you experienced with the first five Lightarian Rays.

Because of the nature of the Source Ray connection, there may be some "ripple effects" and apparent changes immediately following the attunement. However, plan on a longer term support process for the unfolding of your personal ascension plan. Allow plenty of time...the Source Ray is about "long-term fulfillment" rather than short-term change.

Expanding your perspective via the Source Ray

Years ago, a certain phrase became very popular...Think globally and act locally! When this phrase was used, the intention was to suggest that having a broad, visionary perspective was a desirable thing, but don't let that stop you from moving into action to take care of matters "right under your nose." Many of us have taken this message to heart over the years; however, as the planet "gets smaller every day" and as the need for spiritual support for humanity becomes apparent, it may be time to update this phrase.

The Source Ray is a divine vehicle for creating a new phrase...**Think universally and act globally!** Via the ascension process, Universal Source is asking us to view ourselves, our lives and our work from the grandest, most universal spiritual perspective and then move into global service in the Light! The Source Ray will support you in this process of creating a higher vibrational way of being of service in the broadest possible arena for the coming times.

Creating a deeper experience of universal wisdom via the Source Ray

After receiving the Source Ray, your connections into the energies of all twelve Divine Virtues will allow you to access new, expanded levels of universal wisdom. This is not merely about accessing data or information. This broader, more universal sense of wisdom now available for you has been developed, processed and refined back to the highest levels of Universal Source.

Preparing for your Source Ray Attunement

Your only preparation for the attunement would be to review this material and consider a few suggestions....

Over the years, a simple truth for experiencing a guided meditation has emerged....

CLIENT INFORMATION

*There's no right way and no wrong way! So....take what you get.
Whatever shows up in the meditation.....Just let it be!
Always hold the experience lovingly and lightly and without judgment.
If you find yourself evaluating what's going on, then simply let that BE, too!*

For all forms of Attunement, your Practitioner will establish a "resonant" energetic connection with you. Just as you experienced with your Ray attunements, this energetic connection will be accomplished via the "Divine Tuning Fork."

For Remote Attunements: Following your conversation with the Practitioner, the Attunement itself can be done "remotely" (telepathically) as your Practitioner orchestrates the attunement with your Higher Self energies.

1. For the attunement, prepare a quiet room where you can be comfortable and undisturbed for approximately ½ hour. Turn off your telephone. You can be seated or lying down.
2. In preparation for the Attunement, the Practitioner will [a] create an etheric, telepathic connection with you via the highest level of your Higher Self energies and [b] invite the energies of Source to come forward in preparation for the session.
3. When you are ready to receive, close your eyes and take a few long, deep breaths and relax into a quiet state of mind...a light "meditative" state. Move your attention to a place of power within your energy fields that you would like to operate from during this process....that place of mastery, full responsibility and total ownership for all things in your life....that place where the Divine resides within you! Then simply relax and allow the meditation to unfold!
4. During the attunement, the Practitioner will "remotely" orchestrate all the steps in the attunement process via your Higher Self energies and Source.
5. As the remote attunement is drawn to a close by the Practitioner, you'll probably sense that the process is complete through some feeling, thought or intuitive prompting. Simply acknowledge completion of the Attunement and silently thank everyone involved.
6. You and your Practitioner may choose to reconnect to share about this process.

After the Attunement

Many aspects of the Source Ray will be affecting your personal energetic fields in unique ways. Everyone has a different response to the Source Ray! In addition to exciting shifts and expansions of your energies, you may experience some uncomfortable ripple effects after your attunement. However, based on the experiences of Source Ray recipients so far, we feel that this attunement will create further spiritual acceleration for you, without necessarily "thrusting you deeper into the more challenging aspects of spiritual processing." You will simply experience a greater presence of Universal Source in your life...all to serve the highest and greatest purpose for you. After receiving the Source Ray, you will have purposeful support from Universal Source for all levels of your being...all in complete cooperation with your Higher Self.
